Address: Bhubaneshwar, IN **DOB:** 19-11-2004

LinkedIn: *https://www.linkedin.com/in/subhankar-jena-79716a317/*

Results-driven Full Stack Developer with demonstrated expertise in crafting user-centric web applications using MERN stack technologies. Seeks a challenging Full Stack Developer role to leverage technical proficiency and deliver innovative solutions within a dynamic Computer Software/Engineering environment.

Professional Summary

- Proficient Full Stack Developer specializing in MERN stack architecture, dedicated to developing scalable and user-centric web applications.
- Experienced in front-end development using React, Next.js, and Tailwind CSS to create responsive and engaging user interfaces.
- Expertise in back-end development with Node.js, Express.js, and MongoDB, focusing on building robust and maintainable APIs.
- Designed and deployed a production-grade organizational website for CR Cyber Crime Foundation, enhancing public engagement.
- Developed internal systems including employee management dashboards and work-hour monitoring tools improving organizational workflows.
- Optimized React component rendering by 25% through efficient state management at Aioninno Technologies.
- Skilled in integrating REST APIs and implementing authentication and authorization using JWT.
- Knowledgeable in utilizing Git, Docker, and cybersecurity principles to ensure secure and streamlined software development.
- Proven ability to collaborate with cross-functional teams including cybersecurity and IT professionals to create innovative solutions.

Work Experience

Full Stack Developer Jul 2025 - Dec 2025

CR Cyber Crime Foundation (CRCCF)(on-site)

Responsible for the full software development lifecycle, including design, development, testing, and deployment. Required to maintain an understanding of cybersecurity principles and apply them to software development.

- Full Stack Developer responsible for designing, developing, and deploying the official organizational website for public access and outreach.
- Developed internal systems including employee management and work-hour monitoring dashboards, enhancing internal digital workflows.
- Implemented responsive UI using React and Tailwind CSS, integrating REST APIs for streamlined data management.
- Collaborated closely with cybersecurity and IT teams to ensure the website and internal systems aligned with organizational cybersecurity standards.

Achievements:

- Launched the official organizational website resulting in enhanced public outreach and engagement.
- Significantly improved internal digital workflows through the development and implementation of employee management and work-hour monitoring dashboards.

Full Stack Intern Apr 2025 - Jun 2025

Aioninno Technologies Pvt. Ltd (on-site)

Contributed to the development and enhancement of various tech solutions as part of a technology-focused organization, with a focus on front-end development and API integration.

- Developed reusable React components, enhancing the modularity and maintainability of frontend applications.
- Optimized React state management, leading to significant improvements in application performance.
- Integrated frontend applications with backend APIs, ensuring seamless data flow and enhanced application stability.

Achievements:

Improved frontend application performance by reducing render time by 25% through optimized state management and efficient component design.

Web Developer Intern Oct 2024 - Jan 2025

Grantely Edutech Pvt. Ltd (Virtual)

Tasked with developing scalable backend modules, contributing to the functionality of an educational technology platform.

- Built scalable backend modules using Node.js and Express.js, focusing on maintainability and performance.
- Designed and implemented RESTful APIs to facilitate seamless data exchange between frontend and backend components.
- Contributed to the development of impactful learning solutions as part of an educational technology company.

Achievements:

Successfully developed scalable backend modules which improved the maintainability of the application.

Education

Bachelor of Technology in Computer Science and Engineering (08/2022 - 05/2026)
Raajdhani Engineering College (REC), Bhubaneswar, India

Senior Secondary (XII) (01/2020 - 05/2022)
Vyasanagar Public School, Jajpur, India

Achievements

- Developed official website for CR Cyber Crime Foundation significantly enhancing public outreach and organizational impact.
- Built a complete MERN-stack platform for Quickcare, enabling efficient management of medical appointments for doctors, patients, and administrators.

Projects

CR Cyber Crime Foundation - Official Website

- CR Cyber Crime Foundation - Official Website: Spearheaded the full lifecycle development of a production-grade organizational website from July 2025 - December 2025.
- Engineered a responsive design, optimized for performance, and structured it for scalability to effectively increase public engagement.
- Implemented modern web development technologies to ensure a user-friendly experience and meet accessibility standards.

Quickcare - Appointment Booking System

- Quickcare - Appointment Booking System: Developed a comprehensive MERN (MongoDB, Express.js, React, Node.js) stack web platform for streamlined management of medical appointments, from January 2024 - April 2024.
- Implemented user authentication and authorization protocols to ensure secure access for doctors, patients, and administrators.
- Engineered RESTful APIs for efficient data exchange, and optimized MongoDB queries for fast and reliable data retrieval.

Work Hour Monitor

- Work Hour Monitor: Engineered an employee time-tracking system with punch-in/punch-out functionality, photo verification, and admin dashboards which was developed from May 2024 - July 2024.
- Designed and implemented a robust, secure time-tracking solution that enhanced accountability and facilitated efficient workforce management.
- Created intuitive admin dashboards to streamline oversight and reporting of employee work hours.

Hobbies

Chess, Reading, Problem-solving, Coding, Team sports
